

In the Claims

1. (Currently Amended) A seamless doll's skin comprising a seamless, injection molded elastomeric material ~~adapted to be sized and shaped to approximate the size and shape of at least a portion of a doll which repeatedly dressed, fitted over~~ covers and is removed from ~~[[a]] the doll to transform and transforms~~ the doll into a different character or object and has a wall thickness from 1 to 3mm.

2. (Cancelled)

3. (Original) The skin of claim 1 wherein the elastomeric material is a synthetic polymer.

4. (Original) The skin of claim 3 which is a copolymer.

5. (Previously Amended) The skin of claim 4 wherein the copolymer is selected from the group consisting of one of the following: ethylene vinyl acetate copolymer, styrene-butadiene-styrene, styrene-isoprene-styrene, styrene-diene, styrene-isoprene-butylene block copolymers containing mineral oil, branched styrene copolymer, styrene butadiene, styrene-butadiene triblock, styrene-isoprene-styrene linear block polymer, styrene-butadiene radial block copolymer, butadiene-styrene copolymer.

6. (Currently Amended) A doll's skin comprising a seamless, injection molded elastomeric material ~~adapted to be dressed, fitted to~~ which covers and is removed from at least a portion of a doll to transform and transforms the doll into a different character or object, wherein the elastomeric material has a 100% modulus of elasticity between about 120 and 350KN/m².

7. (Currently Amended) The skin of claim 21 wherein the garment is adapted in size to be fitted to and removed from the doll having a height of less than about 8cm.

8. (Original) The skin of claim 2 wherein the garment is adapted in size to be fitted to and removed from the doll having a height of above 8cm to about 20 cm.

9. (Original) The skin of claim 1 in a form selected from the group consisting of animal, human, monster, super hero, robot, and cartoon character.

10. (Currently Amended) A seamless doll's garment comprising a seamless, injection molded elastomeric material having a molded shape to which is adapted to be repeatedly dressed, fitted over and be removed from a doll having a height in the range of above 8cm to about 20cm.

11. (Previously Amended) The doll's garment of claim 10 wherein the elastomeric material is a synthetic polymer.

12. (Previously Amended) The doll's garment of claim 11 further comprising at least one integrally molded detail.

13. (Currently Amended) A doll's skin comprising a seamless, injection molded elastomeric material ~~adapted to be dressed, fitted to~~ which covers and is removed from at least a portion a doll to transform the doll into a different character or object, ~~a doll's garment comprising a seamless, molded elastomeric material wherein the elastomeric material is a synthetic polymer and~~ wherein the elastomeric material has a 100% modulus of elasticity between 120 and 350 KN/m².

14. (Previously Amended) The doll's garment of claim 13 wherein the elastomer material has a 100% modulus of elasticity between 240 and 280KN/m².

15. (Currently Amended) A play set comprising, in cooperative combination, a doll having a height in the range of 8 cm to about 20 cm, donned and fitted with a seamless synthetic polymer injection molded garment which removably encloses around at least a part of the doll and is adapted to be removed, dressed and refitted again to the doll wherein the synthetic polymer has

a 100% modulus of elasticity between about 120 and 350KN/m².

16. (Original) The play set of claim 15 wherein the doll is articulated at one or more of the following: shoulders, elbows, knees, wrists, ankles, neck, head and hips.

17. (Cancelled)

18. (Currently Amended) The play set of claim ~~17~~ 15 wherein the synthetic polymer has a 100% modulus of elasticity between about 240 and 280KN/m².

19. (Cancelled)
